Level 2 Certificate in Understanding Aut

Autism is a spectrum condition that affects how a person communicates with others and how they interpret the world around them. There are around 700,000 people in the UK with autism - more than 1 in every 100. Having a clear understanding of the misconceptions, diagnosis and support surrounding autism are just some of the essential skills needed when working in mental health.

An initial assessment is required prior to enrolment.

What could I go on to do after this course?

If you wish to explore your learning, work or career options, you can speak to a fully trained careers advisor on 0800 100 900. https://nationalcareersservice.direct.gov.uk

Attendance Policy

This course will need to be completed by the end date, which is in 8 weeks.

How are digital skills used and enhanced?

IT/ Digital skills are fully embedded within the course as this is an online course.
The course is entirely delivered online. Learners will need to have access to a good internet connection and a computer. Learners will also need good IT skills. If learners are interested in developing their IT skills further, we have a number of Digital Skills courses available that may help.
The courseware is a pdf booklet that learners will read and then learners can go onto the website and answer questions to demonstrate their understanding. Learners may wish to print the booklet, but this is not necessary.

Health and Safety

Learners are encouraged to work safely. Poor positioning of equipment can lead to Repetitive Strain Injury (RSI).
Discover more about safe ways to work with computer equipment here:
