

Dementia Friendly Gardening

This Dementia Friendly Gardening club is held at Eastgate Gardens, and also using the Rochester Hub including when the weather is not so good. The work undertaken is in a sensory bed in the gardens, with scope for wider work through other parts of the garden and surrounding area. The social aspect is very much encouraged, including use of Jaspers Community Café on the first floor of the Rochester Hub. We encourage participants to come with a friend, family member, support worker etc. to join in with the activity and also provide any specific support needed.
